## Climate changes need to monitor in hill areas, says experts

PR, KalimNews, Darjeeling May 10, 2018: "We need to carefully study climatic changes occurring in the Darjeeling hills and take appropriate measures for adaptation", said Mr. Amar Singh Rai, MLA Darjeeling, while inaugurating the three-day workshop, began in the Darjeeling, today. He said that certain vector borne diseases are slowly emerging that were never heard of few years ago. This may be due to climate change. "Environment scientists must find out the reasons behind it", he said. He urged the media, civil society organization and government officials to work together to sensitise and to create awareness on climate change as it is the need of the hour.

The workshop was organized by Centre for Media studies, Indian Himalayas Climate Adaptation Programme (IHCAP) of the Swiss Agency for Development and Cooperation (SDC) and Department of Science and Technology(DST) Govt of India with state partner Department of Science Technology and Higher Education, Government of West Bengal.

The objective of the workshop is to brainstorm and share experiences on environment reporting with a special focus on climate change. During the workshop, experts from leading research institutes and the state government officials spoke about different aspects of climate change adaptation in the hilly districts of West Bengal.

"These kinds of workshops are being organized to make media persons aware about the importance of climate change and how it should be communicated to the masses," says Mr. Shirish Sinha, Deputy Director, SDC .

Mr. Dinesh C Sharma, Managing Editor, India Science Wire, says, "Journalist should appreciate that climate change is not an event but a process. Focussing on people and communities while reporting about climate change impacts could make interesting stories. At the same time it is important that we keep science of climate change intact and quote experts".

"These workshops give participants a platform to interact with state level experts on climate change and media fraternity on various aspects of climate change," said Ms. Annu Anand in her welcome address. She informed that seven such workshops have already been held in Almora (Uttarakhand), Imphal (Manipur) and Gangtok (Sikkim), Shillong (Meghalaya), Aizawl (Mizoram), Kohima(Nagaland) and Itanagar(Arunachal Pradesh) and this is eighth workshop in the series.

Other environment experts who were present during the workshop were Dr. Sanjib Bandyopadhyay, Dy. Director General of Meteorology & Scientist, Regional Meteorological Centre, Government of India, Dr. Pankaj Jaiswal, Director, Landslide Studies Division, GSI, Ms. Subrata B. Dutta, Senior Scientist, Department of Higher Education, Science & Technology and Biotechnology, Government of West Bengal, Mr. Prahalad Chetri, Project Director Darjeeling Tea Research Association, Darjeeling, Mr. Mrityunjay Choubey, SeniorScientific Officer, Tea Board of India and Mr. Saikat Pal, Secretary, Rajarhat PRASARI.

The Indian Himalayan Region is one of the most vulnerable mountain systems in the world. If effective measures are taken in time, experts believe, it may be possible to prevent further degradation of the ecosystem. It is also expected that these workshops would enhance the capacity of environmental journalists and highlight climate change adaptation issues in local and regional context.

## Three day workshop on climate change kicks off in Darjeeling

Darjeeling, 10 May:

"We need to carefully study climatic changes occurring in Darjeeling Hills and take appropriate measures for adaptation", said MLA Darjeeling, Amar Singh Rai while inaugurating the three-day workshop on climate change in Darjeeling today.

The workshop is being organized by Centre for Media studies, Indian Himalayas Climate Adaptation Programme (IHCAP) of the Swiss Agency for Development and Cooperation (SDC) and Department of Science and Technology (DST) Government of India with Department of Science Technology and Higher Education, Government of West Bengal. The objective of the workshop is to discuss and share experiences on environment reporting with special focus on climate change.

During the workshop, experts from leading research institutes and the State Government officials spoke about different aspects of climate change adaptation in the hilly districts of West Bengal.

"These kinds of workshops are being organized to make media persons aware about the importance of climate change and how it should be communicated to the masses," said SDC Deputy Director, Shirish Sinha.

Seven similar workshops on climate change have already been held in Almora (Uttarakhand), Imphal (Manipur), Gangtok (Sikkim), Shillong (Meghalaya), Aizawl (Mizoram), Kohima (Nagaland) and Itanagar (Arunachal Pradesh).

## Media workshop on climate change in Darjeeling

**Our Correspondent**

**DARJEELING May 10:** A three-day workshop on climate change organised by the Centre for Media Studies, Indian Himalayas Climate Adaptation Programme (IHCAP) of the Swiss Agency for Development and Cooperation (SDC) and Union department of science and technology along with the Bengal department of science technology and higher education got underway here today.

The objective of the workshop is to brainstorm and share experiences on environment reporting with a special focus on climate change. During the workshop,

experts from leading research institutes and the State government officials spoke about different aspects of climate change adaptation in the hilly districts of Bengal.

"These kinds of workshops are being organized to make media persons aware about the importance of climate change and how it should be communicated to the masses," says Shirish Sinha, deputy director, SDC.

Dinesh C Sharma, managing editor, *Dunia Science* Five, said: "Journalists should appreciate that climate change is not an event but a process. Focussing on people and communities, while reporting about climate change

impacts, could make interesting stories. At the same time it is important that we keep science of climate change intact and quote experts."

"These workshops give participants a platform to interact with state-level experts on climate change and media fraternity on various aspects of climate change," said Asmi Anand in her welcome address. She informed that seven such workshops have already been held in Almora (Uttarakhand), Imphal (Manipur) Gangtok (Sikkim), Shillong (Meghalaya), Aizawl (Mizoram), Kohima (Nagaland) and Itanagar (Arunachal Pradesh).

Inaugurating the

workshop, Darjeeling MLA Amar Singh Rai called for a careful study of climatic changes in the Darjeeling hills. "Certain vector-borne diseases are slowly emerging that were never heard of few years ago. This may be due to climate change. Environment scientists must find out the reasons behind it," he said. He urged the media, civil society organisations and government officials to work together to sensitise and to create awareness on climate change.

The Indian Himalayas Region is one of the most vulnerable mountain systems in the world. If effective measures are taken in time, experts believe, it may be

possible to prevent further degradation of the ecosystem. It is also expected that these

workshops would enhance the capacity of environmental journalists and highlight

climate change adaptation issues in local and regional context.

## दार्जिलिंग पहाड़ पर हो रहे जलवायु परिवर्तन पर कार्यशाला शुरू जलवायु परिवर्तन पर ध्यान देना जरूरी : अमर सिंह राई

दार्जिलिंग (निज संवाददाता)। दार्जिलिंग विधानसभा क्षेत्र के सदस्य अमर सिंह राई ने कहा है कि हमें दार्जिलिंग के पर्वतीय क्षेत्रों में हो रहे जलवायु परिवर्तन का राजस्थानीपूर्वक अध्ययन करने और उपयुक्त कदम उठाए जाने की आवश्यकता है। उन्होंने यहां आज से शुरू होने वाले दिवसीय कार्यशाला का उद्घाटन किया। उन्होंने कहा कि कुछ सेंटर होने बीमारियां और-और उभर रही हैं, जो कुछ वर्ष पूर्व कभी नहीं सूनी गई थीं। ये जलवायु परिवर्तन के कारण हो सकती हैं। पर्यावरण वैज्ञानिकों को इसके पीछे के कारणों का पता लगाना चाहिए। उन्होंने आगे कहा कि सीढ़ियां, मिक्ल सेमाइटी अर्गनाइजेशन एवं सरकारी अधिकारियों को जलवायु परिवर्तन पर एकजुट होकर काम करना चाहिए एवं लोगों को जागरूक करना चाहिए। यही समय जो मांग है।

सेन्टर फॉर मॉडिया स्टडीज, इंडियन हिमालयन क्लाइमेट प्रोटेक्शन प्रोग्राम (आईएचसीएपी), स्विस एंजिसी फॉर डेवलपमेंट एंड ऑपरेशन (एसडीसी) एंड डिपार्टमेंट ऑफ़ माइंस एंड टेक्नोलॉजी

(दोएसटी), भारत सरकार ने राज्य पार्टनर विज्ञान तकनीकी एवं उच्च शिक्षा, पश्चिम बंगाल सरकार के साथ मिल कर किया है। इस कार्यशाला को मुख्य तबियत जलवायु परिवर्तन पर विशेष फोकस के साथ पर्यावरण रिपोर्टिंग पर गंभीर और अनुभव साझा करना है। कार्यशाला के दौरान प्रसिद्ध अनुसंधान संस्थानों के विशेषज्ञों और पश्चिम बंगाल सरकार के अधिकारियों ने पश्चिम बंगाल के पहाड़ी जिलों में जलवायु परिवर्तन के विभिन्न विषयों पर प्रकाश डाला। श्री सिमिष् मिश्रा, डिप्टी डायरेक्टर, एसडीसी, श्री दिनेश सी.शर्मा, मैनेजिंग एडिटर, इंडिया जलवायु परिवर्तन पर विस्तारपूर्वक प्रकाश डाला। सुखी अनु आनन्द ने स्वागत भाषण दिया। उन्होंने कहा कि इस प्रकार की सात कार्यशालाएं उपराज्य के अल्मोरा,

पणपुर के इम्फाल, त्रिपुका के गंगटोक, मेघालय के शिलांग, मिजोरम के एज़वाल, नागालैंड के कोहिमा और अरुणाचलप्रदेश के इटानगर में आयोजित की जा चुकी हैं। यह आठवीं कार्यशाला है। कार्यशाला के दौरान अन्य पर्यावरण विशेषज्ञों ने भी पर्यावरण पर भाषण दिया है। उन लोगों का कहना है कि इंडियन हिमालयन रिजून सम्पूर्ण विश्व में मोस्ट भलनेरकल माउंटन सिस्टम है। इसके लिए समय पर कारगर कदम उठाना होगा। इंडियन हिमालयन क्लाइमेट एडैप्टेशन प्रोग्राम (आईएचसीएपी) ग्लोबल प्रोग्राम क्लाइमेट चेंज के अधीन एक प्रोजेक्ट है। इसकी स्थापना 1991 में की गई थी। इसका उद्देश्य ग्लोबल चेंज रिपोर्टिंग रिजून एंड फेसिलिटी थिंक-टैंक है।

## Three-day workshop on climate change

**Mukesh Sharma**  
**Darjeeling May 10:** Darjeeling M.L.A. Amar Singh Rai, Thursday, inaugurated the three-day workshop on 'Climate Change Reporting in the Himalayas'. Rai in his address said "We need to carefully study climatic changes occurring in the Darjeeling hills and take appropriate measures for adaptation". Certain vector borne diseases which were never heard of till few years back are now slowly emerging, he said adding the worrisome development may be due to climate change. "Environment scientists must find out the reasons behind it", he said and also urged the media, civil society organization and government officials to work together and create awareness on climate change. "It is the need of the hour" he added.

The workshop was organized by Centre for Media Studies, Indian Himalayas Climate Adaptation Programme (IHCAP) of the Swiss Agency for Development and Cooperation (SDC) and Department of Science and Technology (DST) Govt of India with state partner Department of Science Technology and Higher Education, Government of West Bengal.

The objective of the workshop is to brainstorm and share experiences on environment reporting with a special focus on climate change. During the workshop, experts from leading research institutes

and the state government officials spoke about different aspects of climate change adaptation in the hilly districts of West Bengal.

"These kinds of workshops are being organized to make media persons aware about the importance of climate change and how it should be communicated to the masses," said Shirish Sinha, Deputy Director, SDC.

Dinesh C Sharma, Managing Editor, India Science Wire stated, "Journalist should appreciate that climate change is not an event but a process. Focusing on people and communities' while reporting on the impacts of climate change can make interesting stories and at the same time it is important that we keep science of climate change intact and quote experts". Annu Anand in her wel-

come address informed, such workshops give participants a platform to interact with state level experts on climate change and media fraternity on various aspects of climate change. Seven such workshops have already been held in Almora (Uttarakhand), Imphal (Manipur) and Gangtok (Sikkim), Shillong (Meghalaya), Aizawl (Mizoram), Kohima (Nagaland) and Itanagar (Arunachal Pradesh) and this is eighth workshop in the series, she added. Other environment experts who were present during the workshop were

Dr. Sanjib Bandyopadhyay, Dy. Director General of Meteorology & Scientist, Regional Meteorological Centre, Government of India, Dr. Pankaj Jaiswal, Director, Landslide Studies Division, GSI,

Subrita B. Dutta, Senior Scientist, Department of Higher Education, Science & Technology and Biotechnology, Government of West Bengal, Prahalad Chetri, Project Director Darjeeling Tea Research Association, Darjeeling, Mrityunjay Choubey, Senior Scientific Officer, Tea Board of India and Saikat Pal, Secretary, Rajarhat PRASARI.

The Indian Himalayan Region is one of the most vulnerable mountain systems in the world. If effective measures are taken in time, experts believe, it may be possible to prevent further degradation of the ecosystem. It is also expected that these workshops would enhance the capacity of environmental journalists and highlight climate change adaptation issues in local and regional context.
